PROFILE SUMMARY

A result-oriented individual with around 2 years of experience as a Full Stack Web Developer in the product-based industry, specializing in **NodeJS**, **ExpressJS**, **MongoDB**, **JavaScript, SQL**, **ReactJS**, **Angular**, **Redux**, **HTML**, and **CSS**. Passionate about working in the software industry to demonstrate skills and enhance capabilities.

TECH SKILLS

HTML | CSS | JavaScript | TypeScript | Node.js | ExpressJS | ReactJS | Redux | Redux-Thunk | AngularJS | SQL | Mongoose | Sequelize | MySQL | MongoDB | Git | GitHub | Postman | MySQL Workbench | VS Code | Webstorm | Chakra UI | Tailwind CSS | Jest | Cypress | Data Structures & Algorithms

SOFT SKILLS

Collaboration | Attention to Detail | Adaptability | Team Work | Remote Work | Problem-Solving

EDUCATION

NSDC-Certified Full Stack Web Development course
Masai School, Bangalore
Jan 2022 - Oct 2022

B.Tech. Civil Engineering
JECRC College Jaipur, Rajasthan
Aug 2015 - May 2019

ACCOMPLISHMENTS

- Secured 1st position at intercollege volleyball tournament, annual sports meet 2018.

HOBBIES/INTERESTS

- Cooking and travelling
- Playing outdoor games

WORK EXPERIENCE

Dec 2022 - Aug 2024 | Software Engineer | Cointab Software Pvt. Ltd., Mumbai
Responsibilities:

- Developed a system to export data from internal systems to external system's APIs.
- Developed and implemented a complete system for seamless **integration with third-party APIs.**
- Designed and developed pivot tables maintaining the hierarchy of configuration levels through code enhancing the data analysis capabilities and improved reporting.
- Created a proprietary API for secure data upload and download, facilitating external API agent's interactions by streamlining data exchange processes, resulting in faster and more reliable data transfers.

Tech Stack: Node.js | ExpressJS | SQL | **MySQL** | **Sequelize** | ReactJS | AngularJs | JavaScript | CSS | HTML | **Bootstrap** | Git | Github | Postman | **OOPS**

PROJECTS EXECUTED

Bag-It-Up: ➚ ○

BagItUp is a solo e-commerce project offering stylish, durable, and elegant bags.
Features:

- Secure Register/Login functionality.
- Add, update quantity of items, remove items from cart.
- Bag listing with advanced search, filter, sort, and pagination.
- Streamlined checkout with Razorpay Payment Integration

Area of Responsibilities:

- Designed and developed a user-friendly Landing Page and Register/Login Page.
- Built All Bags Page, Single Product Page, and Cart Page for seamless user interaction.
- Built RESTful APIs with secure authentication and Razorpay Payment Integration.

Tech Stack: Node.js | ExpressJS | MongoDB | ReactJS | Redux | JavaScript | Bcrypt | JSON Web Token | **Mongo Aggregation** | **Tailwind CSS** | Git | Github

Foodie App : ➚ ○

Foodie is food ordering app designed to enhance the dining experience. It was a collaborative project.
Features:

- Secure Register/Login functionality.
- Add, update, and remove restaurants from dashboard
- Add to cart/remove from the cart
- Streamlined checkout with Razorpay Payment Integration

Area of Responsibilities:

- Built RESTful APIs with MongoDB and NodeJS, including secure authentication using Bcrypt and JWT.
- Built responsive UI and key pages (restaurant listing, single restaurant, cart) using ReactJS and Chakra UI.
- Designed middleware for request handling, authentication, and validation.

Tech Stack: Node.js | ExpressJS | MongoDB | ReactJS | Redux | Bcrypt | Javascript | JSON Web Token | **Chakra UI** | Git | Github
